OUTDOOR KITCHEN CABINETS OVERVIEW

Signature Series

How our components come together seamlessly

Engineered for quick assembly, our precision-fit fiber cement boards attach to the steel frames as a solid backing for your finishing stone. Natural Stacked Stone is secured to the fiber cement board with mortar, forming a weather tight finish that is both beautiful and durable.

Finish your set by adding a Natural Stacked Stone panel.

Our Natural Stacked Stone Panels come in various options for any style, from refined rustic to contemporary chic.

SUMMER KITCHEN COLLECTIONS

Trex® Outdoor Kitchens is proud to debut the Trex Ready™ series – the pinnacle of quality, engineering, and style in outdoor stainless steel kitchen cabinetry, proudly made in the USA.

Trex Ready™ kitchens are constructed with 304-grade stainless steel and designed to provide long-lasting luxury in your outdoor space.

With seven available predetermined layouts, the Trex Ready™ series simplifies the design process by bringing together our most functional and versatile cabinet configurations with six designer-curated powder coat finishes.

Customize your outdoor kitchen in a few simple steps:

1 Select Layout

Find the ideal kitchen cabinet and appliance configuration for your outdoor space. The seven available layouts address a variety of appliance and storage needs.

3 Back Panel Option

If the back of your kitchen is going to be visible, add powder coated back panels for a finished look from all angles.

2 Determine Grill Size

Kitchens are designed to fit 30"-36" or 42" grills from select manufacturers. Grill size will determine the width of the grill cabinet as well as the overall width.

4 Select Color

Choose one of six unique designer-curated powder coat finishes for your cabinets. Match the aesthetic of your outdoor environment or introduce a splash of color.

1 Select Layout

Find the ideal kitchen cabinet and appliance configuration for your outdoor space. Whatever your style of cooking and entertaining, we have the layout for you. Ranging from an elegant grilling station solution to a sprawling outdoor kitchen that'll be the heart of your outdoor space, there's a Trex Ready™ layout to suit your needs.

Haven

Arbor

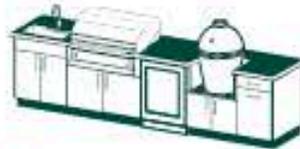

Veranda

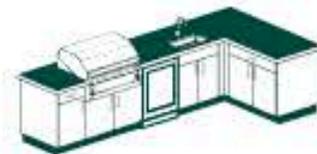

Retreat

Oasis

Grove

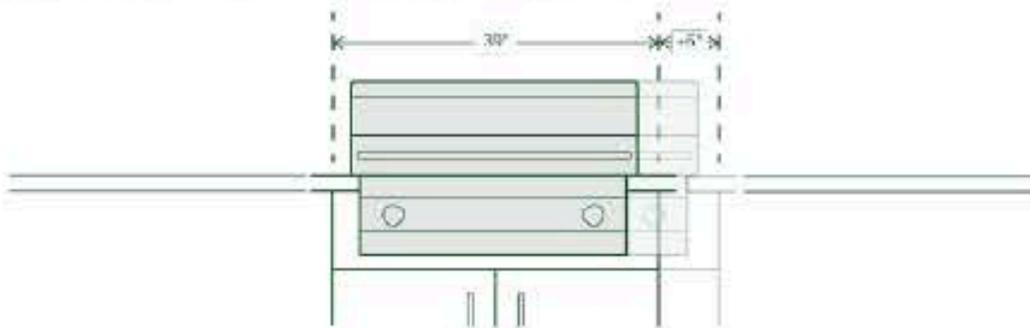

Alcove

2 Determine Your Grill Size

Trex Ready™ Outdoor Kitchens are designed to accommodate 30-36" or 42" grills for most manufacturers. When filling out the order form, please specify the make and model of your grill so that our engineers can provide a custom trim kit that ensures a seamless fit for your outdoor kitchen.

Please note that the Grove and Alcove outdoor kitchens are only compatible with 30-36" grills. The grill size determines the size of the cabinet designed to accommodate it: 30-36" grills require a 39" cabinet, while 42" grills require a 45" cabinet. These widths will be reflected in the template name for your outdoor kitchen (39 / 45).

3 Back Panel Option

If your outdoor kitchen is to be positioned so that the back of it is visible, we recommend ordering powder coated back panels for a finished look from all angles.

Your cabinets can be positioned against a wall or other feature, in which case rear finishing panels are not required.

Rear finishing panels extend the powder coat finish to the back of the cabinets. 

 The finished back of the cabinets offers a consistent 360° look.

4 Select Color

Choose from six popular powder coat finishes to add beauty and reduce the maintenance of your stainless steel outdoor kitchen. High quality 304-grade powder coated stainless steel is designed to withstand the elements. These designer-curated colors are sure to make an impression for years to come.

The hand-picked swatches are versatile and intended to work with various home and landscape styles as well as different climates and environments. Try our online configurator to see the available layouts in different colors.

Haven

Width 76 1/2" (82 1/2")

Height 36 1/2"

Depth 27 7/8" (28 5/8")

Functioning as a compact cooking station, Haven is a grill-centric configuration that flanks the centerpiece with a trash pull-out cabinet and plenty of storage space. Shown in Champagne 304.

Arbor

Width 100 3/4" (106 3/4")

Height 36 1/2"

Depth 27 7/8" (28 5/8")

Designed with entertainment in mind, Arbor adds a refrigerator space and additional workspace on the left side of the grill cabinet. It is rounded out with a trash pull-out cabinet and storage. Shown in Pearl Night Blue.

Veranda

Width 103"(109")

Height 36 1/2"

Depth 27 7/8"(28 5/8")

Veranda offers additional cooking capabilities with a side burner cabinet next to the grill cabinet. It includes a refrigerator space and a trash pull-out cabinet for easy food prep and cleanup. Shown in Seashell White.

Retreat

Width 112 1/2"(118 1/2")

Height 36 1/2"

Depth 27 7/8"(28 5/8")

This configuration is generous with storage and counter space. It includes a door/drawer combination base cabinet, a side burner cabinet, and a trash pull-out cabinet. Shown in Midnight Matte.

Oasis

Width 127 3/4" (133 3/4") Height 36 1/2" Depth 27 7/8" (28 5/8")

The complete cooking and entertainment package, Oasis accommodates a sink cabinet, a refrigerator space, a grill cabinet, a trash pull-out cabinet, and drawer/door combination base cabinet. Shown in Metallic Bronze Matte.

Grove

Width 136 3/4" Height 36 1/2" Depth 27 7/8" (28 5/8")

Grove is the ultimate cooking solution. Featuring cabinets that accommodate a sink, grill, refrigerator, trash pull-out bin, and a smoker, you will have all the appliances you need for food prep and cooking. Shown in Slate.

NOTE: this layout only fits 30-36" grills

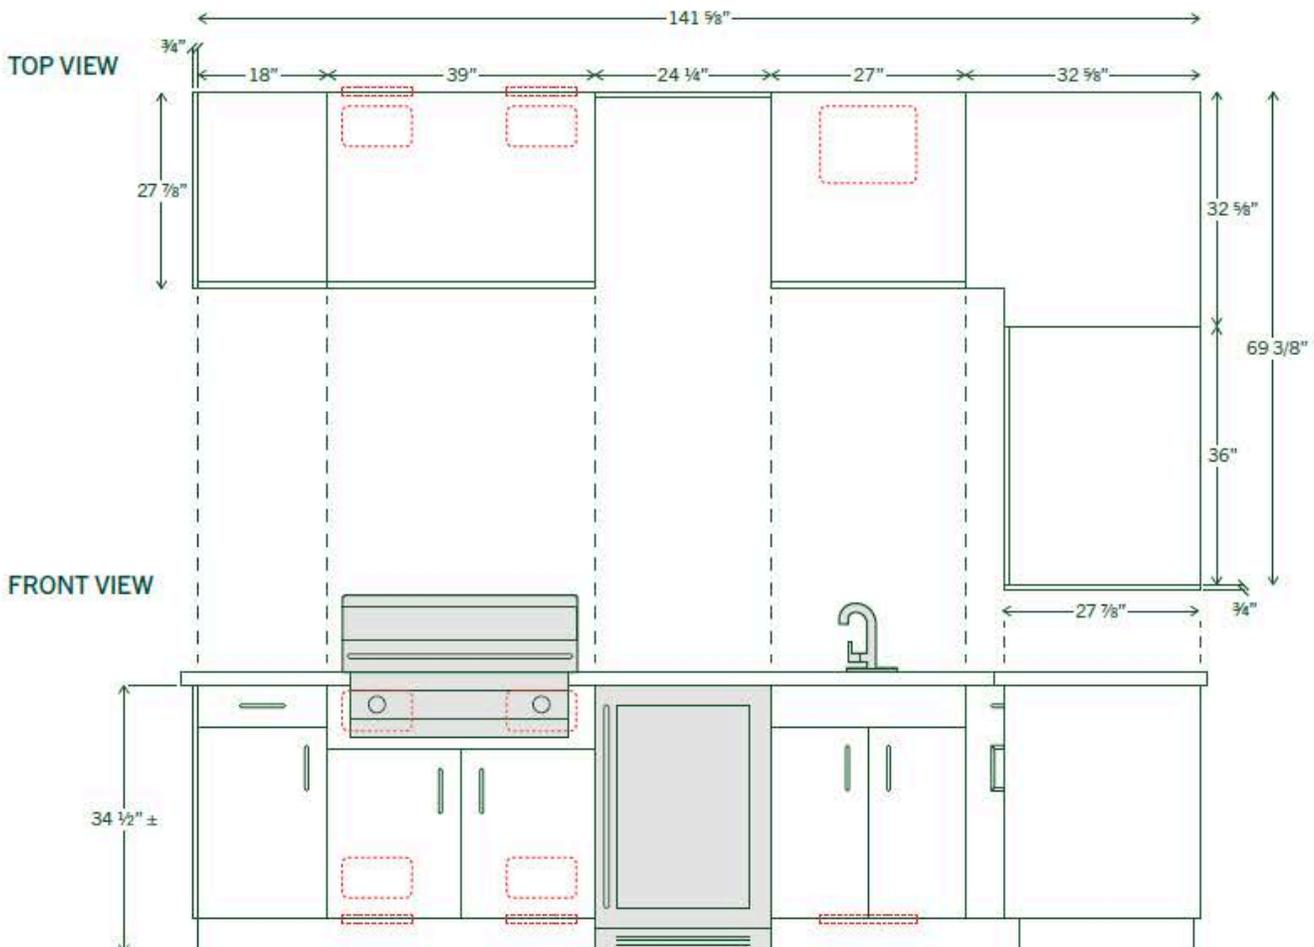

Alcove

142" 70" Height 36 1/2" Depth 27 7/8" (28 5/8")

The most generous layout for storage, Alcove is complete with cabinetry for a grill, sink, and refrigerator. This L-shaped configuration offers ample counter space for all your cooking requirements. Shown in Pearl Night Blue.

NOTE: this layout only fits 30-36" grills
